“Celebrating 10 years of teaching your children”

cubetuition is run by two qualified and experienced teachers – Viv Yankah and Sue Hovell. We work in small classes of 12, allowing each pupil to receive individual attention. The curriculum is structured around the needs and abilities of each child to help them build their **confidence**, develop their **learning skills** and **achieve** their **potential**. To help us achieve this, please inform us of any specific areas of concern you may have about your child.

cubetuition offer the following areas of tuition:

- comprehension/grammar/spelling/reading
- mathematics/problem solving
- verbal and non-verbal reasoning
- study skills
- general knowledge
- preparation for **KS2 Sats** and **11+** Secondary School entrance exams
- English, Maths and study skills for Secondary School students

Every lesson is carefully structured around the needs of each child, enabling them to work at their own pace and to develop life-long learning skills in an atmosphere that is both stimulating and encouraging. Viv Yankah explains further: “The class environment is both relaxed and enjoyable which means our pupils look forward to their lessons, as many of our parents have commented upon.”

Our classes have a maximum number of twelve children enabling us to identify any problems immediately and to accommodate individuals who may require specific help. We encourage group work and discussions, as well as the one-to-one tuition we provide for each pupil throughout the course of the class. We work towards achievable goals with the children, helping them to reach their full potential and enjoy the new-found confidence this brings.

During the holidays we also run English, Maths and Reasoning courses. Early booking is advisable for all these courses. As Sue Hovell adds, “Our strengths lie in our passion and enthusiasm for life-long learning. We also pride ourselves on excellent communication with all our parents.”

“Helping them to help themselves”

Telephone 0208 946 7682 to book your FREE trial lesson.

For more information, please telephone us on 020 8291 5522/020 8946 7682. We would be delighted to discuss your child’s needs with you.
